DAYS 2- 4

Maasai Mara National Reserve, Mara Eden Safari Camp

Today shortly after breakfast we shall fly to Maasai Mara National Reserve north of the Serengeti – Mara Ecosystem via the Nairobi Wilson Airport.

The Serengeti–Maasai Mara ecosystem is, amongst much else, famed for the dramatic migration of its 1,000,000-plus wildebeest and 750,000-or-so zebras with hooves pounding the plains and the intense attention that migration gets from predators, both mammalian and reptilian.

Up here in the system's north, the landscapes are grandly varied but tend to be more green (which is why the migration heads up here, in search of water), with somewhat less savannah than in the south. We'll be staying in a characteristically attractive tented Mara Eden Safari Camp set on the banks of the great Mara River.

This intimate camp blends the finest wildlife viewing with outstanding hospitality and guiding. The well-appointed large spacious en-suite facilities plus the extensive private veranda complete what is genuinely a stunning concept

With our sturdy 4x4 vehicles, experienced guides and drivers, we take you on an adventure of a lifetime, get up close to Africa's big 5 and along the way see a myriad of birds and small mammals from the elusive leopard to the even more elusive and shy civet cat, allow nature to unfold in front of you with predators on the prowl and prey on the run.

From our dinning adjoining kitchen we serve a full English breakfast, a 3 course lunch and a 4 course dinner with tea and coffee available throughout the day.

Hot air ballooning is available and should be booked in advance and is subject to availability and additional cost.

Meal Plan: Breakfast, Lunch and Dinner
